EDUCATION

New York University, Leonard N. Stern School of Business — **New York, NY**
B.S. in Business, Concentrations in Finance and AI, Computing & Data Science — *Sep 2024 - Jan 2028*

- GPA: 3.7/4.0
- Relevant Coursework: Managing Investment Funds, Investment Management, Long/Short Equity Investing, Decision Models & Analytics, Regression & Forecasting Models, Databases for Business Analytics, Financial Accounting
- Activities: MPSIF (Portfolio Manager), Rho Epsilon Iota (Chief of Staff), Tech@NYU, Business Finance Group, Judo

PROFESSIONAL EXPERIENCE

NYC Mayor's Office of Management and Budget (OMB) — **New York, NY**
College Aide, Tax Policy, Economic Analysis & Revenue Forecasting Taskforce — *Sep 2026 – Present*
Intern — *Jun 2026 – Aug 2026*

- Analyzed daily and monthly revenue data across 70+ tax streams using Python and SQL to evaluate financial flows, assess the fiscal impact of policy changes, and inform executive leadership on NYC's tax collection performance.
- Engineered an automated 5-stage Python data pipeline to streamline financial data processing, expand real property tax tracking across 15 components, and improve data quality for downstream tax revenue forecasting and analysis.
- Developed machine learning models using PyTorch and scikit-learn to forecast monthly tax collections, applying time-series weighting and scenario testing under varying economic conditions to support NYC's $120B+ budget.

NYU Stern Center for Sustainable Business — **New York, NY**
Administrative Intern — *Mar 2026 – Present*

- Built scripts to automate scraping from job listings, URL validation, classification, and updates to structured datasets.
- Expanded an Excel-based job board with 150+ monthly sustainability-focused opportunities for students and alumni.
- Enriched Salesforce CRM database with geographic and expertise attributes to support targeted outreach campaigns.

U.S. Accounting Inc. — **New York, NY**
Accounting Intern — *May 2025 – Jul 2025*

- Managed 50+ corporate clients, completing 160+ bank reconciliations and preparing financials for tax returns.
- Leveraged Generative AI to develop Excel VBA macros for payroll and tax filings, adopted across 60%+ of clients.
- Built Python automation for parsing client data for corporate filings, saving 15+ hours of manual data entry weekly.

PROJECTS & LEADERSHIP

Michael Price Student Investment Fund — Portfolio Manager for Systematic Trading

- Manage a $950K systematic sub-fund within NYU's $4M endowment, implementing quantitative factor strategies.
- Applied factor modeling, FinBERT-based NLP, portfolio construction, and backtesting to assess risk-adjusted returns.

Trading the Surprise — Event-Driven Trading Strategy Project

- Built PyTorch models to predict equity reactions to macroeconomic surprises and backtest event-driven strategies.
- Applied feature engineering, time-series analysis, and machine learning to evaluate predictive trading signals.

Telco Customer Churn Prediction — EDA & Supervised Machine Learning

- Developed and compared Logistic Regression, KNN, and PyTorch neural networks to predict customer churn.
- Applied data preprocessing, exploratory visualization, cross-validation, and ROC-AUC model evaluation.

PROGRAMS, CERTIFICATIONS, & AWARDS

- Jane Street Mystery Planet Competition Winner
- Hugging Face Deep Reinforcement Learning
- SEO Career Edge: Markets Track Participant
- Databricks Fundamentals Accreditation

SKILLS & INTERESTS

Technical Skills: Python, SQL, Excel, pandas, NumPy, PyTorch, scikit-learn, Databricks, Git, Data Visualization
Finance Skills: Quantitative Analysis, Factor Modeling, Financial Modeling, Valuation, Portfolio Analysis, Risk Analysis
Languages: English (Native), Mandarin Chinese (Fluent), Spanish (Intermediate) - New Jersey Seal of Biliteracy
Interests: Bowling, Judo, Badminton, Ping Pong, Billiards, Airsoft, Chess, Total War Strategy Games, Board Games
